DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 9 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant has recited in claim 1 that the drive system is used in a vehicle. Claims 9 and 23 further state that the drive system is used in a stationary training apparatus. Examiner is unclear as to how a vehicle can be a stationary training apparatus. Appropriate clarification or correction is required.

Allowable Subject Matter

4. Claims 1-8 and 10-22 are allowable. The prior art of record fails to teach the electric drive system, generator, electrical transmission, drive motor, control system, as substantially claimed.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

The rejections of claims 9 and 12 as noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
